1. This is merely a last minute reminder concerning the possibility of transferring C → from OSO to OPC.

2. There are several critically important points at which we must have competent representation at the earliest possible moment. One of these is Salzburg, where C → has served as OSO representative for several years. If we could obtain his services at this point, I feel that our operational problem in the general Salzburg orbit would be largely solved. I earnestly hope it will be possible for Helms to release C → on the basis that he can make a greater contribution to the CIA overall effort as OPC representative at Salzburg. We really need him.
